Minor - Business Administration Management of Technology

WORK EXPERIENCE

Medical Marketer
Republic EMS / San Antonio / Jun 2021 - Dec 2021

- Worked collaboratively with the area sales team to build, implement, and execute plans boosting sales by 10% per quarter
- Coordinate with other sales personnel to develop and maintain current relationships with clients resulting in a 95% retention rate
- Took regular feedback regarding equipment from the client hospitals and recorded their complaints to inform the senior sales officer and better serve their needs

Credit Card Specialist
J.P. Morgan and Chase / San Antonio, TX / Jun 2019 - Dec 2020

- Provided accurate and appropriate information in response to customer inquiries
- Collaborated with customers and other departments in order to achieve desired goals
- Maintained high accuracy of information given to clients while staying within the 90th percentile of call times

NOTED PROJECTS

COVID-Tracker

- Uses HTML, Bulma, and Javascript for front-end
- Created a search engine that enables you to look up COVID-19 data state by state
- Utilizes chartIt javascript library in order to map out the API data onto a graph for real time up-to-date information

Coding-Buddy

- Platform created for software developers to collaborate and learn coding from each other
- Uses SQL, Node.js, Handlebars, Sequelize, Express.js, and CSS
- Allows users to create an account stating what coding languages they have proficiencies in with a link to their github
- Users can find other software developers based off of programing proficiencies, view their github, and send them an email if they want to collaborate with that individual
